### **Overview:**

What is the cloud? Where is the cloud? Are we in the cloud now? These are all questions you've probably heard or even asked yourself. The term "cloud computing" is everywhere.

In this Breakfast B4 Business, we will help you understand the pros and cons of cloud computing in business. Specifically, we will outline the needs to consider the overall value and liability of doing your billing/accounting from Cloud Based providers as opposed to keeping the billing/accounting on your own computer.
