

What are Head Start & Early Head Start?

Head Start and Early Head Start are federally funded Early Childhood Education programs, locally designed and implemented, providing quality prenatal and early childhood education to children and their families. The programs are comprehensive and involve the family in the total development of the child.

Families with children ages 0-5, and pregnant women are encouraged to apply anytime throughout the year. Families whose children have special needs are also encouraged to apply. Families must meet eligibility requirements. There is no cost for children and families who qualify for the program.

Program Services

- Prenatal health & family support
- Early childhood education with a developmentally appropriate curriculum
- Qualified, caring staff
- Nutritious meals & snacks
- Connecting families with health & dental services
- Services for children with special needs
- Parent engagement & leadership opportunities
- Parenting education
- Family development services
- Community resources & referral information
- Inquire about transportation

Early Head Start and Head Start are two of CAP Services' interconnected solutions designed to further our mission.

Early Childhood Development Philosophy

CAP Services' Early Childhood Development program is a quality, comprehensive child development program that promotes family and community engagement. Our strength-based program focuses on life-long learning which includes: school readiness skills for children; family development services for parents; professional development for staff; and strong, long-lasting community partnerships that "transform people and communities".
